GREAT INDOOR GYMNASIUM

THE management of this institution was the first to organize and set in operation a thoroughly complete system of physiologic therapeutics. Water-cures had existed before—electric institutes, mineral springs, and similar establishments—but the Battle Creek institution was the first to organize a system and method embodying all physiologic agencies.

Accommodations for eight hundred guests; one hundred and seventy-five rooms with private bath; six hydraulic elevators; electric lights and private telephone in each room.

Spacious parlors and lobbies on every floor. Roof garden, dining room and kitchen at the top. Spacious indoor gymnasium, outdoor gymnasium, large indoor and outdoor swimming pools, a corps of experienced trainers, country walks and rides daily. Tent colony in summer.

Staff of thirty doctors; two hundred and fifty nurses and attendants.

Forty years' experience in this institution has demonstrated that the great majority of chronic invalids, of all classes, including many considered incurable, may be trained up to a state of healthy vigor by a systematic regimen based upon scientific principles, combined with a thorough application of the resources of hydrotherapy, phototherapy, thermotherapy, massage, Swedish movements, Swedish gymnastics, electrotherapy and the open air treatment, guided by the exact findings of bacteriological, chemical, microscopic and other accurate methods of examination and pathologic research.

Excellent results are obtained in the various gynecological diseases, chronic indigestion, constipation, enteropneumonia, pericarditis and other forms of anemia, obesity, neurasthenia, hysteria, and chronic malarial infection. Good results are also often obtained in cases of locomotor ataxia, paralysis agens, chronic nephritis, chronic myelitis, multiple neuritis and other nervous affections, exophthalmic goiter, cardiac dropsy, infectious diseases, post and chronic rheumatism.

Special ward for surgical cases with perfect appointments and special departments for diseases of the eye, ear, nose and throat in charge of experienced specialists.

We would be pleased to mail you our booklet which tells the story in pictures and brief interesting description of the Battle Creek Sanitarium and its methods.

The One Great Argument

in favor of the BAKER STATIC MACHINE is its *versatility*. There is nothing in the range of Electro-Therapeutics that it will not accomplish more satisfactorily and economically than with any other method.

Type B Machine, Resonator and High Frequency Connection.

Baker Static Machine

possesses the tremendous volume of energy of a Uni-directional character, essential to successful Radiographic work. Its ability to perform requirements of Coil and Static enables physicians to do all the work with one apparatus instead of two. Rotating plates are of fibrous material found in no other Static Machine. They are of extremely high insulation and guaranteed not to warp, crack or scale. Directions for Using the Marvel Violet Ray

1. Insert glass electrode into the instrument, with straight direct push.
2. Attach the connection plug to the lamp socket.
3. Turn the current on.
4. Adjustment of the Violet Ray discharge is obtained by the adjusting knob. To the right the discharge increases, to the left it decreases.
5. Start any treatment with a mild discharge and increase it gradually to the required strength.
6. Standard winding for the "Marvel" is 110 Volts in the U. S. A. (Twenty watts). For lower and higher voltage special windings are necessary. Information will gladly be furnished upon request.
7. Take good care of the connecting cord. Keep it dry and free from knots and twists. Have it replaced in time if signs of wear appear.

Don'ts

1. Do not attempt to repair the apparatus. If the necessity arises, write to the "Eastern Laboratories, Inc., N. Y. C." advising of your difficulties and you will be informed what to do.
2. Do not use the "Marvel" in connection with any tonic or medicament containing a large percentage of alcohol on the hair or on any part of the body.
3. When not in use, machines should always be disconnected from lamp socket.

Note: Damages arising from carelessness are not covered by our guarantee. If instructions are properly followed the "Marvel" will last indefinitely.
